Empowering The Future Automotive Industry

Who Should Enroll In The Program:

- Automotive Technicians
- Vehicle Mechanics
- Emergency Services Personnel
- Roadside Recovery Operators
- Vehicle Sales and Aftersales Staff
- Anyone with an interest in EV technology

Learning Outcome:

Gain industry-recognized skills to diagnose, repair, and maintain electric and hybrid vehicles safely.

Training Method:

Instructor led training

Practical session

Focus group discussion

Coaching session

Role playing

Self learning

Proficiency Level
Fundamental

Maximum No. of Pax
8 - 10

Course Outline:

IMI International Electric And Hybrid Vehicle Qualifications INT EV1+2+3

Program Duration: 3 Days

INT EV 1

UNIT REF:	UNIT TITTLE	UNIT LEVEL	GUIDED LEARNING HOURS
INT EV1	Electric and Hybrid Vehicle Awareness	1	8
Requirements: No formal entry requirements for this qualification			
What Learners Will Study: <ul style="list-style-type: none">• The types of electric and hybrid vehicles available• Hazards associated with motor vehicle high energy electrical systems• Working safely around electric and hybrid vehicles including charging			

INT EV 2

UNIT REF:	UNIT TITTLE	UNIT LEVEL	GUIDED LEARNING HOURS
INT EV2.2	Electric and Hybrid Vehicle Routine Maintenance Activities	2	8
Requirements: Possess 2 years appropriate vehicle maintenance and repair experience			
What Learners Will Study: <ul style="list-style-type: none">• Electric and hybrid vehicle system components and operation• Hazards surrounding electric/hybrid vehicles• Safely preparing & work on the vehicle when carrying routine maintenance			

INT EV 3

UNIT REF:	UNIT TITTLE	UNIT LEVEL	GUIDED LEARNING HOURS
INT EV3	Electric and Hybrid Vehicle System Repair and Replacement	3	8
Requirements: Possess appropriate vehicle maintenance and repair knowledge and skills at level 2			
What Learners Will Study: <ul style="list-style-type: none">• Working safely on an electric and hybrid vehicle (Isolation Procedure)• Using information to carry out repairs on high energy electrical systems• Recording information and making suitable recommendations			

Training Schedule:

This three-day course is designed with a learning structure of:

- **Day One** : Theory
- **Day Two** : Practical application
- **Day Three** : Examination
